

Dear Lakeside Resident,

It is our pleasure to assist your Association in maintaining its sidewalks and walkways. Precision Concrete Cutting will be initiating repairs within the property beginning Monday, August 28th, and will take approximately two weeks in total to complete. Our repair technicians will be onsite between the approximate hours of 7:30 am - 3 pm.

Please note that you may receive further communication from your Community Manager as we approach areas where vehicles need to be moved for a repair to be completed.

If you have any questions about Precision Concrete Cutting or our repair process, please do not hesitate to contact me or visit our website, provided below.

Best,

Tara Poole

Business Development Manager & Sidewalk Safety Liaison
